

简介 General Description

R12-1型润滑油泵具有体积小、重量轻、噪音小、吸油性能好等优点。适用于各种机床的润滑系统。

R12-1 type lubricant pump has small size, light weight, noise oil absorption and good performance, suitable for a variety of machine tool lubrication system.

型号 Model	排量 Displacement mL/r	压力 Pressure MPa	转速 Speed r/min	功率 Power KW	重量 Weight kg
R12-1	5	0.5	710-1000	0.1	2

DJB系列电动专用加油泵

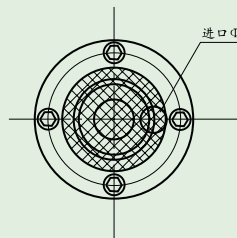

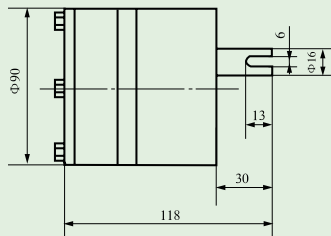

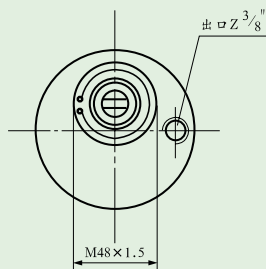

DJB model dedicated motor oil pumps

简介 General Description

该泵是由CB-B型加以改进,为直齿圆柱外啮合的定量容积泵,专为润滑设备DJB系列电动加油泵配套,适用于有电动干油站贮油器内填充润滑脂直接向润滑点加润滑脂。

Dedicated motor pumps is improved from the CB-B-type, in order to spur engagement outside the quantitative displacement pump, designed for lubrication equipment DJB series of electric pumps matching, apply to electric dry filling stations filled with grease inside of an oil storage directly to the grease lubrication points.
